## Objective !

Passionate Full Stack Developer skilled in ReactJS, PHP, and MySQL, with a strong focus on API design and performance optimization. Experienced in building scalable applications and improving user experience. Seeking to contribute technical expertise and innovation to a forward-thinking company.

## Technical Skills

- **Programming Languages:** HTML, CSS, JavaScript, PHP, Python, C, C++
- **Front-end :**Bootstrap, jQuery, ReactJS.
- **Back-end :** PHP
- **Databases :** MySQL
- **Version Control:** Git,Github
- **Design Tools:** CorelDRAW, Illustrator, Photoshop,Canva,Blender
- **Non Programming Skills:** Tally Prime , MS Excel

## Education

<b>Master In Computer Application</b>	2024 – 2026
• Alagappa University   Karaikudi,Tamilnadu	
<b>Bachelor Of Commerce In Computer Application</b>	2021 – 2024
• PRIST University   Thanjavur,Tamilnadu	

## Experience

<b>Junior Software Developer ,</b> Isysway Technologies	Sep 2024 - At Present
<ul style="list-style-type: none"><li>• Developed 5+ web applications using ReactJS, PHP, MySQL, improving system efficiency by 30%.</li><li>• Collaborated with cross-functional teams to gather requirements and deliver efficient and scalable solutions.</li><li>• Enhanced app performance by 40% through query optimization and efficient API calls</li><li>• Conducted code reviews and contributed to improving development workflows.</li><li>• Utilized Git and GitHub for version control and efficient project collaboration.</li></ul>	

## Skills Developed

- **Front-End Development:** Improved page load speed by 20-30% (if you've optimized images, lazy-loaded components, or reduced unused JavaScript)
- **Back-End Development:** Reduced database query execution time by 30-40% (if you've optimized queries, indexed tables, or reduced redundant calls)
- **Database Management:** Managed databases handling 10,000+ records efficiently
- **Security & Performance Optimization :**Implemented secure coding practices, reducing security vulnerabilities by 25-35% and enhancing data protection
- **Utilized Git and GitHub** for version control, collaboration, and project management.
- **Version Control Collaboration:** Streamlined development workflows by 30% through structured Git and GitHub version control.
